

## CASE STUDY #105

**DATE OF INSTALL:** October 2023

**LOCATION:** USA

**PROJECT:** Newbuild

*APPROVED*

### THE CHALLENGES

- Mini-split running to upstairs bonus room.
- Install had to be completed quickly
- Pipe had to remain out of site

**FLEXIBLE | LIGHTWEIGHT / KINK-RESISTANT**

## THE SOLUTIONS

- Python made for a very quick installation as opposed to copper
- Able to follow roof peak to make the installation look great
- Super easy at indoor connection

## THE BENEFITS

- Very quick to install
- Everything seemed very tight and secure

FLEXIBLE | LIGHTWEIGHT / KINK-RESISTANT
